1. The Krapkowice Paper Mill is located approximately 300 meters from the town of Krapkowice. The mill employs about 2,000 workmen; of these 1,500 are Germans and 500 are Poles. 75 percent to 80 percent of the workers are party members, but only by necessity.
2. The mill manufactures second grade bags for cement, brown paper, pine oil and cellulose. Eighteen boilers are in operation, each of which is 7-8 meters in height, 3 meters in diameter at the center, tapering off at each end to about 1-1/2 meter in diameter. Operation is on a 24-hour basis; there are three 8-hour shifts daily. The output per day is approximately 30 fillings of the 18 boilers.
3. All the machinery is old except for one Swedish BT-boiler which has recently been installed. The mill has its own electric power plant which produces 1,200 kilowatts per hour; additional 2,000 kilowatts per hour are supplied by an outside power station.
4. The general manager is Zajac (fmu); the technical manager is Dziewicz (fmu) and the administrative manager is Leppich (fmu).
